

SPINE EXPERT INDIA

Pre-Consult Spine Health Assessment

SEI-PQ v3.0 · Final Edition · Digital Patient Questionnaire

Important notice: This questionnaire captures your symptoms and health background to help your spine specialist before consultation. It does **not** provide a diagnosis. Please answer honestly — there are no right or wrong answers. **Estimated time: 5–7 minutes.**

■ URGENT RED FLAG PRE-SCREEN

Answer this section **FIRST**. If you tick any option A–F, please inform clinic staff immediately.

- ☐ A. Loss of bladder or bowel control — unable to hold urine or stools
- ☐ B. Rapidly increasing weakness in arm or leg, getting worse over hours to days
- ☐ C. Fever with spine pain
- ☐ D. New or severe spine pain after a fall, accident, or major trauma
- ☐ E. Known cancer with new or worsening spine pain
- ☐ F. Significant unexplained weight loss in the past 3 months
- ☐ G. None of the above ✓

PART 1 — PATIENT PROFILE

Your background information · Seen by you and your doctor · Not scored

NOT SCORED

Basic Patient Details

Full Name:

City / Location:

Filling this form for:

- ☐ A. Myself
- ☐ B. On behalf of patient (caregiver / relative)

Q1. Age group

- ☐ A. Below 18 years
- ☐ B. 18 – 40 years
- ☐ C. 41 – 60 years
- ☐ D. Above 60 years

Q2. Gender

- ☐ A. Male
- ☐ B. Female
- ☐ C. Prefer not to say

Q1 Preferred language for consultation

- ☐ A. English
- ☐ B. Hindi
- ☐ C. Regional language — specify below

Language (if regional):

NOT SCORED

Body Profile

Height (cm):

Weight (kg):

BMI will be auto-calculated from height and weight.

NOT SCORED

Occupation & Daily Activity

- ☐ A. Desk / computer work — mostly sitting
- ☐ B. Standing or walking job
- ☐ C. Heavy physical or manual labour
- ☐ D. Homemaker
- ☐ E. Student
- ☐ F. Retired / not working

✓ Select all that apply

- ☐ A. No treatment taken yet
- ☐ B. Medicines only
- ☐ C. Physiotherapy / exercises
- ☐ D. Spinal injection — epidural, nerve block, or facet injection
- ☐ E. Alternative therapy — Ayurveda, acupuncture, chiropractic
- ☐ F. Spine surgery — please fill details below

- ☐ A. No prior surgery
- ☐ B. Spine surgery
- ☐ C. Joint replacement — knee or hip
- ☐ D. Cardiac or abdominal surgery
- ☐ E. Other surgery

Level operated, if known (e.g. L4–L5):

NOT SCORED

This helps the doctor review your records during consultation

✓ Select all that apply

- ☐ A. MRI scan images — CD or digital copy
- ☐ B. MRI report — written report only
- ☐ C. X-rays
- ☐ D. CT scan
- ☐ E. EMG / NCV nerve conduction report
- ☐ F. Previous prescriptions or case papers
- ☐ G. None — no reports available yet

NOT SCORED

Helps us understand how much information you already have

- ☐ A. No — no diagnosis has been explained to me
- ☐ B. I was told there is a disc problem — disc bulge or slip
- ☐ C. I was told there is nerve compression or nerve damage
- ☐ D. I was told surgery may be required
- ☐ E. A diagnosis was given but I did not fully understand it

Helps the doctor understand your main complaint · Not scored

NOT SCORED

Q11 What is your main reason for this consultation?

- ☐ A. Neck pain
- ☐ B. Upper or mid-back pain
- ☐ C. Lower back pain
- ☐ D. Pain going into the arm or hand
- ☐ E. Pain going into the leg or foot — sciatica
- ☐ F. Numbness or tingling in arm or leg
- ☐ G. Weakness in arm or leg
- ☐ H. Difficulty walking or keeping balance
- ☐ I. Second opinion or follow-up visit

Q12 Where exactly is your pain?

✓ Select all that apply

- ☐ A. Neck only
- ☐ B. Neck and shoulder
- ☐ C. Neck, arm, and / or hand
- ☐ D. Upper back — between shoulder blades
- ☐ E. Lower back only
- ☐ F. Lower back and buttock
- ☐ G. Lower back, leg, and / or foot below the knee
- ☐ H. Both arms and / or both legs

Q13 Which side is most affected?

- ☐ A. Right side
- ☐ B. Left side
- ☐ C. Both sides equally
- ☐ D. Central / midline — not one side

NOT SCORED Pain Behaviour & Triggers**Q14 What activities increase your pain the most?**

Helps distinguish disc pain, stenosis, facet pain, and mechanical pain

✓ Select all that apply

- ☐ A. Sitting for a long time
- ☐ B. Standing for a long time
- ☐ C. Walking
- ☐ D. Bending forward
- ☐ E. Bending backward
- ☐ F. Lifting weight or objects
- ☐ G. Coughing or sneezing
- ☐ H. No specific trigger — pain is constant regardless of activity

Q15 What gives you the most relief from pain?

- ☐ A. Lying down or complete rest
- ☐ B. Walking or gentle movement
- ☐ C. Changing my posture
- ☐ D. Medicines or painkillers
- ☐ E. Applying heat or cold pack
- ☐ F. Nothing gives meaningful relief

NOT SCORED How It Started

Q16 How did this problem start?

- ☐ A. Gradually, with no clear cause
- ☐ B. After lifting a heavy object or straining
- ☐ C. After a fall, accident, or injury
- ☐ D. After prolonged sitting, driving, or poor posture
- ☐ E. After exercise or gym activity
- ☐ F. After a previous spine surgery

PART 3 — SYMPTOM & FUNCTION ASSESSMENT

Answer based on the past 7 days · Scores guide your care pathway · Score values are not shown to patients

Please answer every question below based on how you have been feeling over the **past 7 days**. Choose the option that best describes your experience.

SECTION 1 Symptom Severity**Q17 How long have you had this spine problem?**

- ☐ A. Less than 2 weeks
- ☐ B. 2 weeks to 3 months
- ☐ C. 3 to 6 months
- ☐ D. More than 6 months

Q18 When did numbness or weakness (nerve symptoms) begin?

- ☐ A. I have no nerve symptoms — no numbness or weakness
- ☐ B. At the same time as my pain started
- ☐ C. Some weeks or months after my pain started
- ☐ D. Recently — and it seems to be getting worse

Q19 What is your pain level RIGHT NOW?

0 = no pain at all · 10 = worst pain you can imagine

- ☐ A. 0 – 3 Mild — manageable, does not stop my activities
- ☐ B. 4 – 6 Moderate — noticeable, limits some activities
- ☐ C. 7 – 8 Severe — difficult to ignore, limits most activities
- ☐ D. 9 – 10 Excruciating — unbearable pain

Q20 Which best describes your pain pattern?

- ☐ A. Occasional and manageable — I have pain-free periods
- ☐ B. Increases with activity but eases with rest
- ☐ C. Limits my daily activities significantly
- ☐ D. Constant pain, or pain that wakes me from sleep at night

Q21 How is your condition changing overall?

- ☐ A. Improving gradually
- ☐ B. Staying about the same
- ☐ C. Slowly getting worse
- ☐ D. Getting worse rapidly

SECTION 2 Neurological Symptoms

Q22 Pain spreading into your arm or leg (shooting or radiating pain)?

- ☐ A. No — pain stays in the neck or back
- ☐ B. Occasional mild radiation into arm or leg
- ☐ C. Frequent radiation that is bothersome
- ☐ D. Severe, constant radiation that limits what I can do

Q23 Numbness or tingling in arm, hand, leg, or foot?

- ☐ A. None
- ☐ B. Occasional — comes and goes
- ☐ C. Frequent — present most of the day
- ☐ D. Constant or progressively spreading

Q24 Weakness in arm, hand, leg, or foot?

- ☐ A. No weakness
- ☐ B. Slight weakness — I notice it but manage normally
- ☐ C. Difficulty with tasks — gripping, climbing stairs, etc.
- ☐ D. Weakness getting worse over days or weeks

Q25 Walking or balance problems?

- ☐ A. Normal — no problems
- ☐ B. Mild unsteadiness occasionally
- ☐ C. Frequent imbalance — need to be careful
- ☐ D. Need to hold walls, rails, or another person for support

Q26 Fine hand tasks — buttoning clothes, writing, picking up small objects

Answer only if you have neck pain or arm / hand symptoms

- ☐ A. Normal — no difficulty
- ☐ B. Slight clumsiness occasionally
- ☐ C. Noticeable difficulty with fine tasks regularly
- ☐ D. Significant impairment — cannot do these tasks easily

SECTION 3 Functional Disability

These questions help understand how your spine problem is affecting your everyday life.

Q27 Overall impact on your daily life

- ☐ A. Minimal — 0 to 10% of my life is affected
- ☐ B. Mild — 10 to 30% of my life is affected
- ☐ C. Moderate — 30 to 60% of my life is affected
- ☐ D. Severe — more than 60% of my life is affected

Q28 Effect on your work or main daily role

- ☐ A. Working or functioning completely normally
- ☐ B. Reduced efficiency but I am managing
- ☐ C. Cannot perform some important duties
- ☐ D. Unable to work or fulfill my main daily role

Q29 Personal care — bathing, dressing, cooking

- ☐ A. Normal — no difficulty at all
- ☐ B. Slight difficulty but fully independent
- ☐ C. Need to modify how I do things, or need occasional help
- ☐ D. Cannot perform these activities without significant help

Q30 How far can you walk without stopping due to pain?

- ☐ A. Unlimited — as far as I want
- ☐ B. 15 to 30 minutes before needing a break
- ☐ C. 5 to 15 minutes before needing to stop
- ☐ D. Less than 5 minutes

Q31 How long can you sit comfortably?

- ☐ A. More than 2 hours comfortably
- ☐ B. 30 minutes to 2 hours
- ☐ C. Less than 30 minutes before significant pain
- ☐ D. Cannot sit comfortably for any period

Q32 How long can you stand comfortably?

- ☐ A. More than 1 hour comfortably
- ☐ B. 30 to 60 minutes
- ☐ C. 10 to 30 minutes
- ☐ D. Less than 10 minutes before needing to sit or lie down

Q33 Sleep quality

- ☐ A. Sleep normally — pain does not disturb my rest
- ☐ B. Occasional disruption but mostly sleeping well
- ☐ C. Frequent night pain — waking several times
- ☐ D. Cannot sleep properly — pain throughout the night

SECTION 4 Previous Treatment Journey**Q34 How many doctors or specialists have you seen for this problem?**

- ☐ A. None — this is my very first consultation
- ☐ B. 1 to 2 doctors
- ☐ C. 3 to 5 doctors
- ☐ D. More than 5 doctors

Q35 Investigations done for this problem

- ☐ A. None done yet
- ☐ B. One MRI scan done
- ☐ C. Multiple investigations — MRI, CT scan, X-rays, nerve tests

Q36 How well have treatments helped you so far?

- ☐ A. Significant improvement with treatment
- ☐ B. Partial improvement — some relief
- ☐ C. No improvement despite treatment tried
- ☐ D. Condition has worsened despite treatment
- ☐ E. No treatment has been taken yet

SECTION 5 Your Concerns & Goals

A few short questions to help your doctor understand what matters most to you.

Q37 What worries you most about your spine problem?

- ☐ A. I mainly want to understand what is wrong with me
- ☐ B. I want to get relief from pain
- ☐ C. I want to avoid surgery if at all possible
- ☐ D. I am afraid of becoming disabled or paralysed

Q38 Has fear of pain stopped you from moving or doing activities?

- ☐ A. No — I move normally despite my pain
- ☐ B. Slightly — I am more careful but doing most things
- ☐ C. Yes — I am avoiding several activities because of fear
- ☐ D. Severely — I avoid almost all physical activity

Q39 What matters most to you from this consultation? (Choose ONE)

This helps us tailor your care plan to what matters most to you

- ☐ A. Return to normal daily life and work
- ☐ B. Get meaningful and lasting pain relief
- ☐ C. Avoid surgery if at all possible
- ☐ D. Understand exactly what is wrong with my spine
- ☐ E. Get the fastest possible treatment or solution

Q40 Before today, how would you rate your overall spine health?

0 = worst possible spine health · 10 = completely healthy and pain-free · Used for outcome tracking at 3, 6, and 12 months follow-up

- ☐ A. 8 – 10 Mostly good — minor limitation only
- ☐ B. 5 – 7 Moderate — affecting my daily life noticeably
- ☐ C. 3 – 4 Poor — significant daily impact on everything I do
- ☐ D. 0 – 2 Very poor — severely disabled by my spine condition

FOR DOCTOR / SYSTEM USE ONLY — SEI-Score Summary

Pathway	SEI-Score	Recommended Action	Colour
GREEN	0 – 25	Education + Rehabilitation	
YELLOW	26 – 55	Routine specialist consultation	
ORANGE	56 – 80	Priority specialist assessment	
RED	>80 or any red flag	Urgent / same-day review	

PROM / Tool	Source Questions (Part 3)	Applied When
VAS Pain Score	Section 1 — Q3	All patients
ODI — Oswestry	Section 3 — Q1 to Q7	Lumbar / lower back primary
NDI — Neck Disability	Sections 2 & 3 combined	Cervical / neck primary
mJOA Screening	S2 Q3–Q5 + Red Flag pre-screen	Myelopathy screen — neck cases
Baseline Registry Score	Section 5 — self-rated health Q	All patients — 3/6/12 month tracking
